

$P(\text{some false statement})$

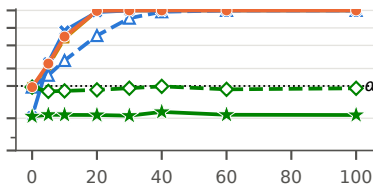

(a) Burst of forged wins

attacker's budget B

- Undeflated betting, one bet
- Per-step robust ($\epsilon = B/n$)

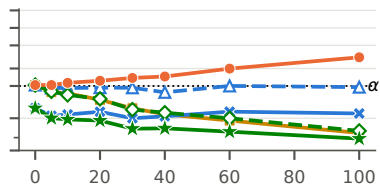

(b) Losses flipped

attacker's budget B

- △— Ours, insertion, one bet
- ×— Ours, insertion, grid

(c) Forged wins at random times

attacker's budget B

- ◇— Ours, replacement, one bet
- ★— Ours, replacement, grid
